Online classes have been held during the pandemic. One of the activities of the project is the self-isolation of children and young people from boarding schools at volunteers' homes.	Limited Liability Company "Ball Beverage Packing Naro-Fominsk"	May 2020 – August 2020	734 326 RUB
21	"Volunteers for special children and adults: helping to normalize the life of people with mental disorders in boarding schools"	The project is aimed at normalizing the life of children and adults with mental disabilities living in boarding facilities in Moscow, Moscow region, Tula, Kirov, Samara, Orenburg, Novgorod and Tver regions. Within the project, volunteer groups will be launched in children's boarding facilities (DDI's) in seven regions and in adults' boarding facilities (PNI's) in three regions. The outcome of the project will be the increase of opportunities for social adaptation and the normalization of the lives of residents of boarding facilities. The project will involve residents, employees of eleven boarding facilities. Within the project we will work out the model of transition of grown up children from a children's to adults' boarding facilities, provide consultative legal, psychological, medical help to the residents of the boarding facilities, and carry out training of volunteers and staff of the boarding facilities.	The Presidential Grants Foundation (Russia)	July 2020 – December 2021	6 097 291 RUB

№	Program Name	Description	Funding Source	Timeframe	Budget
22	"Open world for the children with special needs: psychological and pedagogical classes for children with disabilities"	Rehabilitative and educational classes with special teacher, art therapist, music therapist, neuropsychologist, physical therapist, and other specialists for 10 children with different disorders (genetic, motor, neurological, etc.). During individual and group sessions, children obtain selfcare skills and communicational skills both with children and grown-ups. The important part of the Project is psychological, information and legal support to the families. As part of the Project there are parties and events for children and their families (puppet performances, painting events, costume New year performances).	Chevron Neftegaz Inc. (Russia)	September 2020 – April 2021	550 000 RUB
23	"Workshops for Teenagers with Developmental Disorders"	Educational classes for 35 teenagers with mental disorders in special therapeutic pre-professional workshops (ceramic, textile, polygraphic, etc.). Members of their families are provided by psychological and information support. The participants of the program have a unique opportunity to get useful skills for their future professional realization and employment.	Chevron Neftegaz Inc. (Russia)	September 2020 – April 2021	550 000 RUB
24	"The hand of help. Psychological support groups for parents of special children"	Within the framework of the project, online psychological support groups will be organized and conducted for parents of children with disabilities, including those with mental disorders, autism spectrum disorders (ASD) from Moscow and other Russian regions. The project is addressed to families who have recently learned about a child's diagnosis. Professional psychological support from specialists will help parents of special preschool children accept the child's diagnosis, outline further steps, learn about support and rehabilitation options, and build an educational route. The project will contribute to the timely habilitation of special children, minimization of developmental deviations at later stages, increasing parental competence, and strengthening parent-child relations.	The Presidential Grants Foundation (Russia). Special contest 2020	September 2020 – December 2021	1 585 835 RUB
25	"Help for adults with disabilities at psycho-neurological boarding school"	The project is carried out within the framework of the Program "Rapid Response Fund for Supporting NGOs in the Context of COVID-19". Program support will be provided for elderly people and adults with disabilities living in Moscow psycho-neurological boarding school (PNIs) No. 23 and No. 34. Regular leisure meetings and creative activities of volunteers and people living in PNIs are planned; as well as legal, psychological, and psychological-pedagogical consultations. Online work will be developed: residents of boarding schools will be able to communicate using modern communication platforms, they will be given tablets for communication with specialists and volunteers.	Charitable Foundation "Charities Aid Foundation". Contest "EU Solidarity with Russian Civil Society: Helping Elderly and Adults with Disabilities"	August 2020 – April 2021	1 000 000 RUB
